Recognized Historic Resources in Fenway/Kenmore

The boundaries of Fenway/Kenmore are contested. For example, some people would consider resources such as the St. Botolph Area Architectural Conservation District and Back Bay Fens Gatehouses outside of Fenway/Kenmore. In an effort to be as comprehensive as possible, we have included them. It's also worth noting that there are many important historic resources in Fenway/Kenmore that have not been recognized with an award or Landmark designation, such as the McKinley Preparatory High School and Hotel Buckminster. The Fenway Neighborhood Preservation Project intends to identify additional historic resources for future advocacy based on community feedback.
